

# Beautiful Summer

## Primal Scream

We met in the fall, american autumn  
Sister and brother, twins of a soul  
We had a love it was strange at the time  
Stronger than evil it was darker than, darker than the night

Beautiful summer, summer of love  
She was my lover, now she is gone

Lover is a drug, love is a demon  
Love is a curse, sexy as sin  
Oh lovers are murderers, who want to steal your soul  
Oh lovers are murderers, who want to keep, who want to kill your soul

Beautiful summer, summer of love  
She was my lover, now she is gone away too soon

I fell like a child into her arms  
Down to her underworld, drowning in her storms  
The cities of violence are sad, sick, concrete souls  
Exploding in ecstasies of love and sex, no fear of death anymore

Beautiful summer, summer of love  
She was my lover, now she is gone  
Beautiful summer, summer of love  
She was my lover, now she is gone away too soon
