## **Everybody Needs Somebody**

## **Primal Scream**

Life on your own, don't really make you free You can't put your arms around a memory A little bit of soul, is worth more than gold

Everybody, needs somebody Everybody, needs somebody Everybody, needs somebody Everybody, needs somebody I need you

The lonely days and nights were paved with dreams I've loved and lost and I do believe A little bit of soul, is worth more than gold

Everybody, needs somebody Everybody, needs somebody Everybody, needs somebody Everybody, needs somebody I need you

We got to get together babe.....
