

Invisible City

Primal Scream

The flashing lights and police cars
Polysexual gutter stars
Brutal stares of skinhead crops
The corner boys look like their dogs

Kebab shops, pubs and mosques
The dancing clubs, synagogues
The police station cracker zombies
The readers wife, suburban origin

Invisible city, invisible city
Invisible city, invisible city

The pissed up girls, kiora tans
Miniskirts and one night stands
Up the duff, sunlit thighs
Miss the father of their lives

The withered streets, hallucination
Strange faces like a bacon painting
Midnight drive in a neon sunshine
I love this city such a beautiful city

Invisible city, invisible city
Invisible city, invisible city

Another freak who left you waiting
Politician, dead TV
Sack of shirts, spin of garbage
Tonight of that frequency, tonight of that frequency

Invisible city, invisible city
Invisible city, I love this city such a beautiful city

The withered streets, hallucination
Strange faces like a bacon painting
Midnight drive in a neon sunshine
I love this city such a beautiful city

Invisible city, invisible city
Invisible city, I love this city such a beautiful city

Invisible city, invisible city
Invisible city, I love this city such a beautiful city

Invisible city, invisible city
Invisible city, I love this city such a beautiful city
