Your soul don't burn
You dark the sun you
Rain down fire on everyone
Scabs, police, government thieves
Venal psychic amputees
Parasitic you're syphilitic
Parasitic you're syphilitic

Swastika eyes You got Swastika eyes You got Swastika eyes, swastika eyes, swastika eyes

I'll vent my spleen I'll keep my dreams
My flesh, my bones, my soul, I own
My mind's a weapon immune from infection
Blood in my eyes, my vision is clear
Parasitic you're syphilitic
Parasitic you're syphilitic

Swastika eyes You got Swastika eyes You got Swastika eyes, swastika eyes

I see your autosuggestion psychology Elimination policy A military industrial Illusion of democracy

Swastika eyes You got Swastika eyes You got Swastika eyes, swastika eyes
