

You're Just Dead Skin to Me

Primal Scream

Everyday is a better day without you
I got so strung out I lost myself all tangled up in you
Sweet lover, sister, friend, you were my everything
I dreamed a dream of you but it wasn't true
It wasn't true no, no

I don't care now you are dead skin to me
I don't care now you are dead skin to me

Your pretty face hides a darker place I got damaged
When my soul was sick you pushed I tripped
I hurt so hard I hurt
Addicted to you I was weak you stole my mind
It's a twisted world you're a twisted girl
Your curse don't hurt no more

I don't care now you are dead skin to me (2x)
