

Find A Way

Prime Circle

Time moves I don't know
Wrong step and I wait for something more
Right time but so out of place and it's just the way it goes

Take a chance, make a move
Take a stand just do what you
Have to do.
Sometimes wanna run away
And it's just the way it goes.

Go fast go slow; take a chance if you're willing
To let it go. Stay and fight or just run away
And it's just the way it goes.

Can we find a way?
To get back where we started
Rewind the day in hope that we could be out of here.

Try hard, sometimes miss
Who'd a thought it could ever
Come to this.
Enemy become a friend.
And it's just the way it goes.

Take a chance, make a move.
Take a stand just do what you
Have to do.
Sometimes wanna run away
And it's just the way it goes

Can we find a way?
To get back where we started
Rewind the day in hope that we could be out of here.
