

New Phase

Prime Circle

Once again I can see myself
Moving forwards and backwards
Trying to see just where to go
Seems nothing can stop me
Oh, I just can't believe myself
I just can't believe you
These things I try to say
I guess go

I can't define what I see
Cause something's coming
over me
This place and time, this state
I be believe me coming over
over me
Cause I'm in a new phase

Revolutionise the way that you're
thinking maybe
Nevermind it's all a game but
it's something
to me through
Oh' I just can't believe myself
I just can't believe you
These things I try to say
I guess go

I can't define what I see
Cause something's coming
over me
This place and time, this state
I be believe me coming over
over me
Cause I'm in a new phase
