

# Take Me Up

Prime Circle

It's another place  
It's another hour  
It's another face  
And we're so far from home  
Now it's different  
Dialing number 9  
And trying to get a line  
Just to hear a voice  
That I can recognize  
Not so different

Now, sit and watch the world  
Through a window frame  
And I get so excited to take  
That stage again

Take me up [2x]  
Gonna find out  
Take me up [2x]  
To the high ground  
Take me up  
Gonna find out  
Where I'm, where I'm going to

Just to close my eyes  
And to feel it  
Just to move around  
And believe it  
And trust it all  
I know you'll never let me fail

Looking out at all the faces  
That are staring back at me  
Are you listening  
Is it sinking in
