

Take Me Up

Prime Circle

It's another place
It's another hour
It's another face
And we're so far from home
Now it's different
Dialing number 9
And trying to get a line
Just to hear a voice
That I can recognize
Not so different

Now, sit and watch the world
Through a window frame
And I get so excited to take
That stage again

Take me up [2x]
Gonna find out
Take me up [2x]
To the high ground
Take me up
Gonna find out
Where I'm, where I'm going to

Just to close my eyes
And to feel it
Just to move around
And believe it
And trust it all
I know you'll never let me fail

Looking out at all the faces
That are staring back at me
Are you listening
Is it sinking in
