

# Big City

Prince

Alright you polaroids.. let's go!  
(yeah.. yeah.. yeah..)  
Mhh we're in the big city  
Uh.. come on!

Where ever we are it's a big city  
Dirty little hotel room or working on a farm  
If everybody is a star - to me - you're the most pretty  
I'm in da big city, da big city, da big city  
When I'm in your arms

Bright Lights, a sea of faces  
Something tells me this is gonna be fun  
Tonight's the night  
And of all the places  
That I'm going to fall in love, it's got to be this one

There'll never be anybody happier than this  
Let's make a vow and seal it with a kiss  
(uh.. yeah)

Where ever we are it's a big city  
Dirty little hotel room or working on a farm  
If everybody is a star - to me - you're the most pretty  
I'm in da big city, da big city, da big city  
When I'm in your arms

It's our time - we're in the line for the big break  
Everything is looking up when you're this low to the ground  
It's bout time  
Everybody's on the take  
Let's get a big brush and paint this town

The night is young...  
Much younger than we are  
Let's kiss the night  
Away in a fast car

Where ever we are it's a big city  
Dirty little hotel room or working on a farm  
If everybody is a star - to me - you're the most pretty  
I'm in da big city (and me), da big city, da big city  
When I'm in your arms

Everybody's getting money instead of getting saved  
Not you and me honey we already gave  
Just as long as eye got you don't care come what may...

(Well.. she's in da big city)

Eye just came to tell y'all  
From the darkest desperation to the highest bliss  
Power to the one's aware of the bigger than this!  
Big city uh.. where's my guitar?  
What's going on? everything good

Where ever we are it's a big city

Dirty little hotel room or working on a farm  
If everybody is a star - to me - you're the most pretty  
I'm in da big city, da big city, da big city  
When I'm in your arms

The big city so pretty  
Oh yeah  
Taking back the lane give it to the next man, plane  
Foxy and you what you wanna do?  
That's it.
