

# Compassion

Prince

Get it on  
Right on

A zero point approaches  
And the field around you drop  
Thoughts become reality  
And it feels like time has stopped

When all that's on the radio  
Is electromagnetic pop  
Steady, your teeth are gnashin'

Compassion  
Get it on  
Compassion  
Right on

Love for the greater number  
Freezes over and cools  
And everyone around you acts  
Like a bloody fool

No sanctity to the left of you  
No righteousness to the right  
The only thing that's left in fashion

Compassion  
Get it on  
Compassion

Whatever skin you're in  
We all need to be friends  
All happy again  
So much better than nothing

Everybody can win  
With a little faith in man  
Beginning of an end  
Start up a brand new something

When ego, fear, and judgment  
Become the rule of law  
Watch the polar ice caps  
Heat up, melt down, and thaw

When the greedy one forgets  
That he's the reason for it all  
The only gold that's so worth stashing

Compassion  
Get it on, get it on  
Compassion  
Right on, right on

In the high-seated lawless no love can be found  
Nature will rise against nature and get down

Whatever skin you're in  
We all need to be friends  
All happy again  
It's so much better than nothing

Everybody can win  
With a little faith in man  
Beginning of an end  
Start up a brand new something

If you got compassion  
Let's get back in fashion  
The new international anthem

Whatever skin you're in  
We all need to be friends  
All happy again  
It's so much better than nothing

Everybody can win  
With a little faith in man  
Beginning of an end  
And start up a brand new something

Whatever skin you're in  
(Whatever skin you're in)  
We all need to be friends  
(Black and white and yellow, we can be friends)  
All happy again  
It's so much better than nothing

Everybody can win  
With a little faith in man  
Beginning of an end  
And start up a brand new something
