

Feel Good, Feel Better, Feel Wonderful

Prince

Eye could tell by the color of ur
Nrg field
U thought this game was over
Chemical peel
U tried 2 do me like my good brother steve
But eye got another funky
Trick up my sleeve
Expecting me 2 freak on you a little bit more
But you get nothin but well-wishes
& flowers galore
Eye mean no harm
Eye still got ur back
U can come and drink my wine
As a matter of fact

Just feel better, feel good, feel wonderful

Eye don't know what you thought
When you spit in my face
But this dimension ain't the time
Or the place
Eye don't know who told you u could
Stand next 2 me
Cuz eye got a guitar that could
Part the sea
Don't mean no disrespect
Eye ain't tryin' 2 brag
But that might b the same one that
Tapped on the crag

And brought 4th the water
That quenched ur thirst
And we'll keep feeding ya
But first things first!

Feel better, feel good, feel wonderful

If you think about how much time it took
4 you 2 try 2 get a page in my book
Eye feel so good right now
Eye just can't recall
What the __ eye was thinking when eye
Threw you the ball

It hit 3 bystanders after you touched it
Now they wanna sue me but they love me 2 much
Cuz they know eye wish them heaven and all of its gold
Same 2 u, come on let's groove
2 the purple rock 'n roll

Feel better, feel good, feel wonderful

Better than good, better than good,
U know you should feel wonderful
Keep ur mind in the vertical motion
Always looking up
