

# Good Love

Prince

Good love, U got a:  
Baby, in the heat of the night  
U know what 2 do  
Good love, U got a:  
Cherry pie, apple kisses  
Everything is cool

Technicolor children in Picadilly Square  
Whisper words, erotica, when U kiss me there  
Gustav Mahler #3 is jamming on the box  
I'll have another glass of U, this time on the rocks

4th of July in every stroke  
A symphony of light and sound  
Oh, I want 2 die from all the smoke  
Fire breaks out when U're around

Good love, U got a: yeah  
Baby, in the heat of the night  
U know what 2 do  
Good love, U got a: yeah  
Cherry pie, apple kisses  
Everything is cool

It brings a flash 2 my heart just the thought of U  
Plethora of euphoria in everything U do  
Any place 2 zero, U are number 1  
Baby, in the heat of the night, U're my favorite fun

U and I in each others arms (U and I - each others arms)  
Here is another world (Here I'm protected)  
Here I'm protected from all harm  
Only the naked, boy and girl

Good love, yeah!  
Baby, in the heat of the night  
U know what 2 do  
Good love, yeah (Ooh)  
Cherry pie, apple kisses  
Everything is cool, cool, cool (Cool)
