Empty house, my old friend We meet again I have been gone for so long But here I am

It's been a long time since I laid on this bed

Dusty shelves, stains in the rug Broken door to mend Here is where they used to lie And wanted it all to end

It's been a long time since I laid on this bed

Old memories Haunt me Haunt me

Haunt me

Haunt me

I can't stay for too long I must be gone

Empty house, my old friend We'll meet again And again

It's been a long time since I laid on this bed

It's been a long time since I laid on this bed
