

# I Am Not Alone

Priscilla Ahn

Do you see me all alone in a world I call my own?  
Even though I try to be so ordinary  
I feel different so I hide, I wish I could be alright  
Behind eyes that see the world  
Always from the outside

But life is never what it seems  
I find the message in my dreams  
It's like a faded memory whispering secrets just for me

So I cry in the night  
For something I found in my heart  
There's a star in the sky guiding me home in the dark  
If you call out my name, I know I'll see you again  
I'll remember I am not alone

When I stare into the sky and my feelings pass me by  
I will sing a little tune  
From when we danced under the moon  
Even though I'm on my own, I will know I'm not alone  
You have taught my heart to grow  
Now my love will carry on

But life is never what it seems  
I find the message in my dreams  
It's like a faded memory whispering secrets just for me

So I cry in the night  
For something I found in my heart  
There's a star in the sky guiding me home in the dark  
If you call out my name, I know I'll see you again  
I'll remember I am not alone

I'll remember I am not alone
