## **Pretty Dress**

**Priscilla Ahn** 

Pretty dress what a mess I made the day you left When you asked me to forgive you I ran away to be on my own And cry all alone

You showed me love You showed me love

No one knew what I went through You saw that my heart was true So I dry my tears face my fears I smile because I know you were there And how you cared

You showed me love You showed me love

And I know when I'm lonely It's okay for me to be

You showed me love (I've never felt like this before You picked me up from off the floor) You showed me love (You taught me how to love again) You showed me love You taught me how to love again)

You showed me love
