

# Hello My Apple

Priscilla Renea

There was a time i was pretty unsure  
bout everything regarding you  
Didn't know if you wanted to kiss me  
or your lips were just twitchin  
but i wondered if you felt it too  
There's no way to know where this is going  
but i'm ready  
can't officially say we're going steady but

You are my apple and i wanna take a bite  
you might be hard on the outside  
but you're oh so sweet inside i  
love when you call and say you're just saying goodnight my apple  
goodnight my apple goodnight  
my apple goodnight  
my apple goodnight

sometimes i feel like seein what you're doin  
but i feel like i'm getting on your nerves  
so i pretend like it don't bother me  
that it's been bout a week since  
your name was on my caller id  
there's no way to know where this is going  
but i'm ready  
can't officially say we're going steady but

You are my apple and i wanna take a bite  
you may be hard on the outside  
but you're oh so sweet inside i  
love you when you call and say you're just saying  
hello my apple  
hello my apple hello  
my apple hello  
my apple hello

well i hope you don't get the wrong idea  
but i can't get over your lovin my dear  
i just don't know how to show  
so please don't take this the wrong way  
but i mean every word that i say  
and i just want you to know  
that you are my apple and i wanna take a bite  
i especially love it when you're kissin goodnight  
you are my apple and i wanna take a bite  
i especially love it when you're kissin me goodnight

you are my apple and i wanna take a bite  
you may be hard on the outside  
but you're oh so sweet inside i  
love when you call and say you're just saying  
hello my apple  
hello my apple hello  
my apple hello
