

See Forever Eyes

Prism

Looking right through you she knows who you are she's got see f
orever eyes
A spirit obsessed, a vision possessed with universal inner sigh
t
No stranger to love she's had many men but none of them survive
d
Her crystal excites so follow the light of her see forever eyes

CHORUS

See Forever Eyes
See Forever Eyes

Beholding the mirror her eyes give a feeling of lonely vacant s
kies
Soaring above always searching for love the soul within her fli
es
Caught by a glance, in a gossamer trance, woven by her lies
Compelling them nearer, dispelling their fear with her see fore
ver eyes
