

# Take Me To The Kaptin

Prism

The planet dies and no one cries  
So hard to believe  
If there was somewhere else to go  
You know I'd be the first to leave

I don't mean to sound ungrateful  
But I'm afraid that I just can't stay

I had a dream the other night  
And as the dream unfurled  
I took a trip in a rocket ship  
And I found another world

They told me about their Kaptin  
Then I asked him "Could I stay?"

I said: Take me to the Kaptin and tell him why I'm here  
I want to stay in your world while my world disappears

Won't you take me to the Kaptin and tell him why I'm here  
I want to stay in your world while my world disappears

(repeat from verse 2)
