## Virginia

Summer leaves are gone and the time has come For the plans you made long ago Hear the engines roar as we walked throught the doors I just can't believe this dream is over Virginia look up in the sky, don't it bring you sorrow We know when ever you gonna fly, I will be there tomorrow Virginia, Virginia don't go Virginia, Virginia don't go It's easy to release me when you're three thousand miles away You no longer care, when I'm no longer there And all the love we have will fade away, fade away

Virginia please hold on to me, don't leave it all behind Is there something I can say, that will change your mind Virginia, Virginia don't go Virginia, Virginia don't go

So look around you now at this faceless crowd You can walk right out and forget it Virginia we got too much love to bring it to an end And I know if I let you go, I'll never see you again Virginia, Virginia don't go Virginia, Virginia don't go Virginia, Virginia don't go Virginia, Virginia don't go
