

## All Fall Down

Pro-Pain

it's the crime of the centry  
and millions are killed  
the cupboards are empty  
and pockets are filled  
a vicious intention  
to cut like a knife  
in light of redemption  
you fight for your life  
innocence is lost  
and it cannot be found  
hence the holocaust  
tis' in sorrow we drown

all fall down

now the guns are for hire  
to kill on command  
we jump in the fire  
the time is at hand  
we'll keep it together  
and take it to heart  
this hopeless endeavor  
till death do us part  
innocence is lost  
and it cannot be found  
hence the holocaust  
tis in sorrow we drown

all fall down
