

Stronger

Pro

I go harder
Cause I done been knocked down again
But what don't kill me that make me stronger
Stronger that make me stronger stronger
I gotta live
And ain't no way I'm going back to my sin
I know you live in me and that make me stronger
Stronger that make me stronger stronger

You say the righteous never get forsaken
Well help me understand while I feel like a orphan lately
That's such a selfish statement look how my heart impatient
You send these trials to make me
But never let em break me
Media hate us set that on top of our hate list
My homies get glad for bangers
Detractors just wanna debate us
Hey You sustain us won't let us get devoured by evil
They want us lost and swimming with the sharks - Finding Nemo
And even if I die today or this world don't ever change
I give glory to your name cause we on
And I ain't talkin' bout the shows they put me in
But through His blood He bought me back
So if I fall in faith I go

I go harder
Cause I done been knocked down again
But what don't kill me that make me stronger
Stronger that make me stronger stronger
I gotta live
And ain't no way I'm going back to my sin
I know you live in me and that make me stronger
Stronger that make me stronger stronger

Sometimes I just wanna end it all it's like this after the fall
They beat me until I crawl still I'm hearing you're call
I'm begging for assistance while in this life I'm resistance
See I have no resistance minus my Father's persistence
So even if life wanna throw me a curve
We're building everything top of His Word
That's how we fight forget what you heard
Say what you want or what I do or what I don't
For every sin we knows the cost and He paid that on top that cross
We know this life is full of pain but for Him I'm unashamed
Cause He gon' call my name and I'm gone
That's why I live my life in light of that
Ain't no way I'm turning back
Call me out, a matter of fact

I go harder
Cause I done been knocked down again
But what don't kill me that make me stronger
Stronger that make me stronger stronger
I gotta live
And ain't no way I'm going back to my sin
I know you live in me and that make me stronger
Stronger that make me stronger stronger

Throw them hands up wave em in the air
If you know you're stronger c'mon everybody say Ya
Yeah yeaah
Now throw them hands up wave em in the air
If you know you're stronger c'mon everybody say Ya
Yeah yeaah

I go harder
Cause I done been knocked down again
But what don't kill me that make me stronger
Stronger that make me stronger stronger
I gotta live
And ain't no way I'm going back to my sin
I know you live in me and that make me stronger
Stronger that make me stronger stronger
