

Somewhen

Procol Harum

Just put your hand in mine
We'll walk in the sand together
Just let your heart drift through our life
You've always been there
I'm never alone
No way, no how, no when

We'd lay in the sun and dream
It's true when we're here together
Warm in the cold, the fires, the snow
You own my heart
Never to part
No way, no how, no when

Today loves more than yesterday
But so much less than tomorrow

So just put your hand in mine
I'll walk by your side forever
You know I'm yours
I know you are mine
And when we're gone
We'll meet again
Some way, somehow, somewhen
Somewhen
