

Staring

Professional Murder Music

Here I wait tonight
So far in this trance
I feel miles from the world
And take this chance

Now I'm stuck inside of here
I'm just lost in the moment
Never asked for anything
You just took me to it

Staring at you
But still can't tell what I'm seeing
Staring right through your eyes
Now I don't believe that your real

When I'm over this
You give a little more
It holds me tight for now
But I will never cure

Now I'm stuck inside of here
I'm just lost in the moment
Never asked for anything
You just took me to it

Staring at you
But still can't tell what I'm seeing
Staring right through your eyes
Now I don't believe that your real

Just let me
Fly far now
I don't care what they will think now

Don't stop this
No ending
It's everything I wanted
