Professor Green

Pneumonoultramicroscopicsilicovolcanokoniosis  
I don't know what that is but I know it flows sick  
Oh shit  
There I go being a dick again  
Look at me I can say the longest word in the dictionary -ry -ry -ry  
I don't know much but I know the futures bright the futures green  
The futures me  
The futures I  
Maybe you'd understand me a little better if you were high  
To like my dj I I I Q  
Make no mistake I'm just as high high high too  
If you say the wrong thing about me, your career is something that you can say goodbye bye bye to  
How's your album doin'? mine flew  
This time around I'm doing what I did on the last one times two, and some  
Damn son  
Have you seen the state of your eye balls!?

Don't piss me, don't piss me. Don't piss me off  
Till we stop there'll won't be no folding  
No, we give it everything we've got  
Till the wheel falls off we'll be rolling  
Yea we go anywhere we want; don't piss me off!

Meet at, track meet, I eat tracks; that's me  
Jack D, Hack-ney's, in my blood, and weed  
Accede to the throne, taxi and I'm home  
Bad b, black sheep, bag a beans and and o  
Yo! I'm getting high tonight  
With women who make do; getting bi-tonight  
I like the life, I ain't into courting  
I'm only into spooning if it leads to forking  
I'm back buzzing  
I'd shag Eva Mendez even if she was my damn cousin  
Please don't think I am bluffing  
Even though I'm swimming and women throw the pussy at me; I ain't trying to catch nothing  
I ain't lightening up I'm still as mean, still as drunk, still as high, still as lean, still as green stood still on a pair a stilts in a distillery sket  
The last time I got head it involved a guillotine.

Don't piss me, don't piss me. Don't piss me off  
Till we stop there'll won't be no folding  
No, we give it everything we've got

Till the wheel falls off we'll be rolling  
Yea we go anywhere we want; don't piss me off!
