

We have waited for so long
To occur this day
There are those who fly away to a distant place
But I think I'll stay
And I wouldn't have it any other way
In this solace I see
A light piercing the darkness
Coming on the winds
Of imagery
When all I know is crumbling
I am becoming something more than humanity could ever allow me to be
I remember a day when
My dreams of escape
Seemed so far away

Let's go back in time, you and I
To my
Initiation to your false empire
You greased, you aimed
And then you spit
While I
Once again pushed away my conscience

Yet always, it seems
I cannot fathom the plateau
Without first the pit

Against the goads there can be no pleading
Because every thought reaps an action
And for you, my former captor
All the earthly wisdom and wealth
Cannot erase your susceptibility
To brutal mortality
And the funny thing about justice
Is that it always comes when you least expect it
So friends it won't be long
Seems I stole your smile, right from wrong

So forever now we'll find
Our peace inside this
We'll find our solace in your silence
And though I once desired your twisted sense of fame
I know, I know that in myself I'm nothing

Nothing
Nothing
Nothing but the words of the "meaningless"

You have given me all I'll ever need
The nerve, the greed, the lust, the lust, the lust, the lust for justice
And now I will never rest
Until the meaningless become your silence

.And you're

Over
Over

Over

Out! (4x)

Now I mean to thank you once again, with this

My, my, my goodbye kiss

You broke my heart

But something tells me that I won't, that I won't, and I won't miss it

And on this very day

And on this very hill

While the heavens are hushed

In anticipation, beckoning

We'll have ourselves a reckoning

And all of the oppressed will greet you

And you're

Over

Over

Over

Out!

Over

Over

Over
