## **December Sadness**

## **Project Pitchfork**

Thick clouds over the town
She's alone in her room
Icy wind in the streets
Snow falls
She's alone in her room
Surrenders to December sadness

No light in this room
Blue painted walls black curtains
Night all the time
She's waiting night and day

She's waiting for you

Candles are burning Tears are falling Ice on the window She's waiting

A glass of red wine Snow is still falling She remains in December sadness

No light in this room
Blue painted walls black curtains
Night all the time
She's waiting night and day

She's waiting for you

She remains in December sadness
