Project Pitchfork

You suck me in
You spit me out
You say you love me
I have my doubts

You think I'll do everything for you
But I'm fed up now
And we are through

I don't wanna take it anymore
I'm gonna fight back
That's for sure

Come back to me
I love you still
Come back to me
Resist his will
Come back to me
I kissed your wing
You sweet everything
(2x)

Resist his might
We simply have to fight
(4x)

He's peeling me out
Of my shell
Now I know his world is hell

He's gone too far
We reached the end
And all what's left
Is love
Pretend

Come back to me
I love you still
Come back to me
Resist his will
Come back to me
I kissed your wing
You sweet everything
(2x)

Resist his might
We simply have to fight
(4x)

We simply have to fight
We simply have to fight
