

# Green World

## Project Pitchfork

Green world  
Soundless drifting over the green  
A breeze let me fly higher and higher

Waterfalls  
I'm floating in  
Cool crystal water  
Purity all living in  
Peace freedom

On the ground  
Green light  
Wet heat  
Live is filling everything  
Never silence  
Lovely sounds from above

Trees  
Live-giving gods  
Bowing to live  
Never fading  
Guarding everything  
Vibrations in the air  
Flying jewels  
I'm the forest
