

# The Swamp Of Secrecy

Project Pitchfork

They float through our night sky.  
They are observing us  
They are brothers and sisters.  
Who are only allowed to watch

Their fear of mass hysteria.  
Doesn't excuse their mocking.  
Of humanity

It's said leaders of every nation.  
Have had contact with them  
The pope got a message.  
And keeps it hidden in a safe

If you see them and live in the states.  
Be aware of black dressed men  
'cause your country has a special interest.  
In keeping these facts a secret

Their fear of mass hysteria.  
Doesn't excuse their mocking.  
Of humanity

Why don't they spread the word.  
Of their discoveries on mars  
The pyramids and the stone faces.  
Looking into space with fears in their eyes

Their fear of mass hysteria.  
Doesn't excuse their mocking.  
Of humanity
