

Tower Of Lust

Project Pitchfork

This night I'm feeling feeling drowsy
Purity of the thoughts
Tender skin on white pillows
You pull me back to our dreamlands
An island of love
In and out

I see you I feel you
Movements of ecstasy
We fuse together
Close embraced
Praying for eternity

Eyes like stars
I feel your warmth
Do you feel mine
Your odour like a drug for me
You soak me up
Our minds are free
Wine on the blanket
Is this reality

In and out

I see you I feel you
Movements of ecstasy
We fuse together
Close embraced
Praying for eternity

I see you I feel you
Praying for eternity

I see you I feel you
Movements of ecstasy
Praying for eternity
