

Ammunition

Prong

You bleed when I fire
Your fall I aspire
I cannot change your ways
It's pointless, can't you see
You are far from hope
Your end is what I need

Liberation, ammunition

Liability control
It's the blood on your soul
It's nothing to deny
Your passing

Revenge is my style
Defense from my rivals
Already see your fate
I smile at what you see
The powder in my veins
Endless possibility

Liberation, ammunition

Liability control
It's the blood on your soul
It's nothing to deny
Your passing

Got ammunition, you can't survive (no way)
Got ammunition, to end your life
Got ammunition, I have arrived (no way)
Got ammunition, got ammunition
Liberation (no way, no way, no way)

Liberation, ammunition

Liability control
It's the blood on your soul
It's nothing to deny
Your passing

Got the ammunition, got the ammunition
Ammunition, got the ammunition
