

Eternal Heat

Prong

You feel pain
You feel pleasure
Tend to stray from decision
Get your way, get your focus
Move aheadm, take some measures

Star by present fire
And eternal heat
Fusion and pressing
Elemental state
Star by present fire
And eternal heat
Fusion and pressing
Elemental state

Take now the final steps
Teach out, take effect
Clear way for your path
Give thanks to what you have

Employ yourself
Own your life
Draw the map
Flame from spark

Cause to stay, cause to action
Seal your fate with your passion

Star by present fire
And eternal heat
Fusion and pressing
Elemental state
