

# Looking For Them

Prong

Better keep looking behind your back  
Times are about to change  
The ignorant ones disobey our laws  
Soon to be erased

Don't think doors will ever hide  
The thoughts of any complaints  
Believe in the cause, believe it or not  
Elimination like the plague

We will find them  
They will never know  
They have no idea  
That we are looking for them

Writing and naming in a black book  
The numbers on display

There is no question  
Opening of mouths  
By methods we have our way

Gonna get hard for us to survive  
Power it makes you afraid  
Better keep looking behind your back  
Things are about to change

We will find them  
They will never know  
They have no idea  
That we are looking for them

We will find them  
They will never know  
They have no idea  
That we are looking for them

Looking for them [x2]

They have no idea  
That we are looking for them

They have no idea  
We are looking for them

We will find them  
They will

We will find them  
They will never know

We will find them  
They will

We will find them  
They will never know

Looking for them [x7]
