

Spirits of this world trying to trip me out
Filling me with fear keeping me in doubt
Doin't do it
Can't do it
Never find it right, never see no light
Never whole inside, Nonsense in my mind
So done with it
I'm over it

Tired of basing my life
On the reactive mind
I'm a dependant type
To be self sufficient

Delusions how they hide how can't survive
The confusing needs others cursing me
Can't have it
Can't live with it

Tired of basing my life
On the reactive mind
I'm a dependant type
To be self sufficient

I'm a dependant type with reactive mind

Need to magnify the will to get right
Enough is always more but don't want to
Score
Can't have it
Can't do it
I'm a dependant type with reactive mind
I'm a dependant type with a reactive mind
To be self sufficient
Self sufficient
