

With Dignity

Prong

Somehow I will find a way
Somehow I will find escape
I'll find a way won't attach myself again

Into a place that's insane
Displacing all of the blame
I'll find a way not to entice myself again

Somehow I'll find a way,
Somehow be finding how to land escape
And not be making the old mistakes
That cause more misery.

How do you summarize
That you've been living a lie
Without fear, walk away with dignity
It's best to step aside
Try for a better life and reappear
Walk away with dignity.

Right here I hope to remain,
Right here I am not afraid
Hope to remain in a place that will amaze
Into a place that became,
Replacing all the dismay
I hope to remain
In a state that's self contained.

Right here I hope to remain,
Right here I'm staying where I'm not afraid
And not be making the old mistakes
That cause more misery.

How do you summarize
That you've been living a lie
Without fear, walk away with dignity
It's best to step aside
Try for a better life and reappear
Walk away with dignity.

Without fear, disappear, then reappear
Remaining, replacing, displacing
Into a place that somehow holds no blame.

How do you summarize
How do you live a lie?
Walk away with dignity.
It's best to step aside,
Better step aside.

Walk away with dignity.
Walk away with dignity.
Walk again with dignity.

How do you summarize
How do you live a lie?
Walk away with dignity.

It's best to step aside,
Better step aside.
Walk again with dignity.
