

Let It Die

Protest the Hero

6 billion minds, controlled by one
10,000 more, stare down the barrel of a gun
Annihilation by a system of our own design
Your definition of freedom, my friend, needs to be redefined

A quality, or a state of being free
Your absense of necessity brings a country to it's knees
And your slavedrivin way of government wears the mask of democr
acy
And the way you abuse your leadership my friend, doesn't make m
uch sense to me

Watch, watch it die, let it burn, watch your empires crumble

Watch your empires
Watch them die
Die by the hands of you
