

See-la
Know what they longing for
Know what they longing for
And I've got it, I've got it
We've got it, hey

Young general a talk-tell
Anyone a call dem
Never could have want take part inna harm-me
Man of war inna Menelik army
See them a move with the message of Garvey
Can't listen who dem elect hardly
Never play fi dem part inna party
Hear say Audley start drive Audi
Beg your pardon, a Beamer, me sorry
Lead who? Dem lost, we nuh follow dem
Organize and find me nuh one again
Twelfth child in asylum with the ban-a-dem
Bobo he'll a talk, walk, far we nuh ball a dem
Ethiopia the Ark of the Covalent
Queen Maheed, at the stark of the sovereign
Selassie I, hard or we cuff a dem
We not inna none of them things, so I say

Ites say I want, hold
A love we living in

When I&I a past through, hey

Said I took a break, and I love to break
No I hold the break, looking to make a break
That a great as take
Cali flow seeds like grate a cake
Chop then I grate a make
And then a take a date, then I make a mate
That a grate a place
Now you's raised a blade, and grate my face
And breake a matrix, I penetrate
Nuh hesitate for me to generate
That will devastate you
Dan say devastated
Keep more thackts than the mail a state bin
Keep them waiting, like thugs inna state pen
Jail-out cause the system same thing
Flee the scene with cuts of escaping
My mind in need for get, right?
'Thority what we need for get, so

Ites say I want, hold

A love we living in
I&I a past through
Greetings I bring a dem
Ites I want, hold
A love we living in
I&I a past through
Greetings I bring a dem
Ites say I want, hold
When I&I a past through
Say, Ites say I want, hold
When, I&I a past through
