In The Streets (interlude)

Protoje

I arise
And open eyes
And focus ears
And all I hear
Is children playing in the streets
Watch them playing in the streets

And they at peace and they are free If they can see it then why can't we I see them playing in the streets Watch them playing in the streets

So be the one to set the plan And use your knowledge as your weapon And see some reading in the streets No more bleeding in the streets

So when we start is when it end So let's begin 'cause I intend To see my children playing in the streets Watch them playing in the streets

Watch them playing in the streets
