No excuse when she roll she spliff  
For she don't even care if it smudge no lipstick  
Nah refuse that a how she rep  
She mek sure I have some greens with it when I sip it  
Then she roll off and roll up ma ting  
And make me know that anyhow I put it in my lyrics then  
Only some girls gonna comprehend

No she nuh agree wid dem policies  
So she bun her trees.  
No apologies neva needed,  
Pon her property no it never cease so she get her peace  
And her release when she weeded.

How I roll it up so delicate  
How I nah tek a draw before she get a hit  
How me a drive in from far  
And me alone pon the road jussa move with  
My light and my music when  
The thought of you just waiting make me reach home safely  
Navigate me baby, I know it's on you brain.  
When you hear these statements  
And these message placements  
No need to explain what I say

She put her lips to my blunt and kiss it  
No excuse when she smoke she spliff  
For she don't even care if it smudge no lipstick then  
Nah refuse that a how she rep  
She mek sure I have some greens with it when I  
Have some greens with it when I

So now she say she grown up

And she growing her own from the ground up  
From the seed to the stalk till the pound drop  
And now a me mek demands when I show up  
Then I set sail as I inhale  
The surplus is not for sale  
It's purpose is much more real  
So courteous with how she deal it  
But it increase her feeling when me a buil' it  
She wet it and seal it

Put her lips to my blunt and kiss it  
No excuse when she smoke she spliff  
For she don't even care if it smudge no lipstick  
Nah refuse that a how she rep  
She mek sure I have some greens with it when I  
Have some greens with it when I  
Have some greens with it when I sip it  
Mek sure I have some greens with it when I  
Have some greens with it when I  
Have some greens with it when I
