

Overtime

Protože

Got me, got me bad, mashing up my meds

No lie, I say the moment is right
I hoping you let me know tonight so that I
Can put in the overtime
I found someone for I, Fari, no lie
I say the moment is right
I hoping you let me know tonight so that I
Can put in the overtime, can put in the overtime

'Cause she no impressed by the vanity
And all that it brings
Diamond clusters and all o'the bling
Let us get away, I'll give you all o'the things
You're my precious like in 'Lord of the Rings'
And I'll put the necessary ring pon you finger
To the right of you pinky deh
Pon you left hand
You know the wedding band, get a bridesmaid
Get a perfect wedding dress in your size made

Eyes on eyes, I eyes the prize beside me
Side by side in the ride we ride
Chick weh ride or die a play from the iPod I
LOX tune, me girl grow locks too
She on track with me tracks too, take me out of bad mood
Crush it up and roll Backwood
Intelligence she got too
Spirituality intact too, so you know I had to

And now she pretty in pink with a witty instinct
As I roll through the city of Kingston
A talk me a talk the truth, car tint so them can't see who
And she wink as the stink hit the lids of her eyes while she staring
At me steering, hit clutch, shift gear in
No I lying, no clutch, tiptronic as the whip
Skip thru every room in the traffic
