

## Black River

První hoře

Flow, flow black river  
To the landscape of trees  
I would like you to take me  
Into your arms

Burn, burn all the bridges  
So nobody could find me  
Let the river carry me away  
Far, far away  
From my destiny

Shine, Shine all the stars  
For the dark comes  
Let me see you the last time  
Everything I used to love
