

# I Want That

Psapp

I forgot that there is something hiding in me  
I know you wanted to, but can you take it?  
Can you take it?

I won't bite, oh come on and give it to me  
Wrap it up in my palm and let me take it  
Knowing me, I'll break it

I am you, I'll wear a ribbon and a bow  
Cause you never ever know  
What is gonna happen

I know I want that  
I know I want that  
I know I want that  
I know I want that

Look at me, I can fill you to the brim  
I want to take you on a whim  
Gonna make you like it

Let's go out, and find there's something hiding in me  
I know you wanted to, but can you take it?  
Can't you take it?

Sailing in bin bags to the farthest reach  
(I know I want that)  
We'll search for trinkets on an empty beach  
(I know I want that)  
I've got a handful of kaleidoscopes  
(I know I want that)  
I've got a hammer and a mile of rope

I know, I know I want that  
I know, I know I want that  
I know, I know I want that  
I know, I know I want that

I'll wear a ribbon and a bow  
Cause I think you like it  
I like a friend, I love a foe  
Why'd you think you liked it?  
I got a lot of mess in tow  
And I bet you like it  
I like to shout it down the phone  
Oh, I really like it

I know I want it now, I know I want it now, I know I want it now  
I know I want that  
I know I want it now, I know I want it now, I know I want it now  
I know I want that  
I know I want it now, I know I want it now, I know I want it now  
I know I want that  
I know I want it now, I know I want it now, I know I want it now  
I know I want that
