Leaving In Coffins

Psapp

You used to come, come around the house
Now everything you've got, it's gone cold
And everyone who I have ever loved
Everyone is getting old

You go, go
And you don't come back

I used to see you driving round the town
You and your children always smiled
Now all the things I hold dear to me
Are falling off in pieces

You go, go
And you don't come back

You used to come fixing round the house
Now all your things are getting cold
And everyone who I have ever loved
Everyone is getting old

You go, go
And you don't come back
