

You know and I know  
How we work and how we hope  
We get all tied up

You made some magic  
You didn't even try  
Fell out of your eye  
And I did to

You can't tennon one hand today  
My fingers get in the way  
I get all tied up

You know and I know  
How we work and how we hope  
We get all tied up

I drag my feet and drag your style  
Don't want me around  
Tie you up
