

# It's Just a Movie, Stupid

Psychostick

She was all alone in this imperfect world  
And was very, very lonely  
Nobody really understood just how she felt  
Till one day she slipped on a banana peel

Then there he was, he picked her up  
And asked her, "Hey, are you okay?"  
He was tall and dark, and strong and kind  
And sensitive with washboard abs, and it was

Bullshit  
Bullshit  
That would never happen

Knights in shining armor haven't been around since the middle ages  
No one will love you till you've gotten through all your depression stages

Pull your head out of your ass, and go hit the stairmaster  
Learn to paint, or take some yoga  
'Cause your life is not a complete disaster

He's been friends with her since they were five  
But she's in love with some other guy  
He tried to get her to feel the same way about him  
But she hasn't come around yet

Her boyfriend then cheated on her with  
A cheerleader and seventeen strippers  
Her best friend said she's too good for him  
What she needs is probably right in front of her

She began to think 'bout the guy who was always there for her  
And realized they were meant for each other  
She looked for him, but his car broke down  
So he's all alone walking in the rain  
She runs after him, as she calls his name, and it was

Bullshit  
Bullshit  
That would never happen

Five bucks says that she totally wouldn't taken back the guy that cheated on  
her  
The notion of him ever getting out of the friend-zone is absurd

Pull your head out of your ass, get a life or something  
Make some friends, and chase your dreams  
'Cause you won't get chicks with your low self esteem

She walked into a party looking beautiful  
He couldn't look away  
There eyes met, and it was love at first

Bullshit  
Bullshit  
That would never happen

Romeo and Juliet is a fairy tale and nothing more  
You've gotta go around and date a bunch of duds before you finally score

Pull your head out of your ass  
There's no perfect soulmate  
Let it go, 'cause movies are  
Just a place to go on an average date

Pull your head out of your ass  
Embrace the disappointment  
Pull your head out of your ass  
'Cause that movie romance is all bullshit
