

# 1 (Peace)

Public Enemy

So long ago  
The story go  
I testify  
I occupy  
All the battlin and wrastlin  
On capitol hill  
Now the pill got you ill  
And yall digital  
I dig the dig  
Been offed the pig  
Diggin the digital  
And I never renigged  
Slow down  
They want a slower damn sound  
Machine?  
Who me  
They don't even know what I mean  
What I'm sayin  
'what I'm seein  
Is human beings  
Who I'm seeing  
What I'm saying  
Who be playing  
Whatim sayin  
Seeing beings  
Humans turned into damn machines  
They don't even know what the fk it means  
Yall can stop it on the 3  
But they dropped it on the 1  
The p e a c e just begun

Yes we can  
Its out the can  
This mf beat is african  
I rhyme once a while  
When the sht is wild  
Some people confused  
Consumin  
Style  
As you grab it  
They come to grab us  
Now they gots us  
I think they shot us  
Corporations  
Down to your bone  
I ain't no dumb mf on a smart ass phone  
I been legit  
We never quit  
Exploded  
Uploaded  
So yall can spit  
Go on and downloaded  
Mixtape  
But it mixed  
And it ain't tape  
Don't rhyme for the sake of riddlin  
Tweet for the joke of twitterin

My intuition  
Got me trippin  
Position  
Humans turned into damn machines  
They don't even know what the fk I mean  
Yall can stop it on the 3  
But they dropped it on the 1  
The p e a c e just begun

My mind is mine  
My grind design  
I been that age  
They ain't been mine  
So watch me work it  
From my circuit  
Against their purpose  
Of keepin truth from the youth  
A p.i .circus  
They tell yall speed  
Is what yall need  
Make you consume  
To get the boom  
No answers  
No dancin  
Y'all just consume  
When the partys done  
They  
Just tearin up the room  
Bomb the earth to pieces  
They cant calm the world to peace  
The lease is up in this  
The belly of this beast  
Humans turned into damn machines  
They don't even know what the fk I mean  
Yall can stop it on the 3  
But they dropped it on the 1  
The p e a c e just begun
