Under the house
Under the house
It came out of the wall
A single cadaver
(under the house)
It went under the house
Scream in the trees
Under the moon
(scream in a dream)
Solid the grave
(vile stinking)
Stone cold ambition
Solid and gross
It went under the house
It's not the sun I wear as a crown
I colour the clouds
Under the house
Solid the grave
Stone cold ambition
(solid discreet)
It came out of the wall
A single cadaver
It went under the house
A scream in the trees
Under the moon
Ages apart
Under the house
It's not the sun I wear as a crown
I follow the clouds
Under the house
Scream in the trees
Under the moon
It came out of the wall
A single cadaver
It went under the house
The jugular bulge rips
Steal if I could
Under the house
(ages apart, under the house)
Scream in the trees
(stone cold ambition, solid discreet)
Under the moon
(under the house)
It went under the house
Under the house
A scream in the trees
Under the moon
The vile stink in my nostril
A single cadaver
(stone cold ambition)
It clouded out of the wall
Solid disgrace
(the smoke is a float)
It's not the sun that I wear as a crown
(every breeze brings disease)
Ages apart
