

## Under the House

Public Image Ltd.

Under the house  
Under the house  
It came out of the wall  
A single cadaver  
(under the house)  
It went under the house  
Scream in the trees  
Under the moon  
(scream in a dream)  
Solid the grave  
(vile stinking)  
Stone cold ambition  
Solid and gross  
It went under the house  
It's not the sun I wear as a crown  
I colour the clouds  
Under the house  
Solid the grave  
Stone cold ambition  
(solid discreet)  
It came out of the wall  
A single cadaver  
It went under the house  
A scream in the trees  
Under the moon  
Ages apart  
Under the house  
It's not the sun I wear as a crown  
I follow the clouds  
Under the house  
Scream in the trees  
Under the moon  
It came out of the wall  
A single cadaver  
It went under the house  
The jugular bulge rips  
Steal if I could  
Under the house  
(ages apart, under the house)  
Scream in the trees  
(stone cold ambition, solid discreet)  
Under the moon  
(under the house)  
It went under the house  
Under the house  
A scream in the trees  
Under the moon  
The vile stink in my nostril  
A single cadaver  
(stone cold ambition)  
It clouded out of the wall  
Solid disgrace  
(the smoke is a float)  
It's not the sun that I wear as a crown  
(every breeze brings disease)  
Ages apart
