

Think

Puddle of Mudd

Wait wait wait
You never wanna wait
Wait wait wait
Slow down
Stop and think
Think think think
You never wanna think
Cause everything
Could it be a dream
Another bad dream
So I drink, drink, drink
I'm putting down the drink
Cause I can't feel a thing

Cause every time you say goodbye
I've seen that look a thousand times
There's no more room left inside
It's gonna be alright
It's gonna be alright

Fear fear fear
Just don't be afraid
Afraid afraid afraid
Watch the tube and waste
Waste waste away the days
Flush it down the drain

Cause every time you say goodbye
I've seen that look a thousand times
There's no more room left inside
And every time you say good night
I love to watch you close your eyes
There's no more pain left inside

It's gonna be alright
It's gonna be alright
It's gonna be alright
It's gonna be alright
It's gonna be alright

Hate hate hate
You always gotta hate

Cause every time you say goodbye
I've seen that look a thousand times
There's no more room left inside
And every time you say good night
I love to watch you close your eyes
There's no more pain left inside
It's gonna be alright
It's gonna be alright
It's gonna be alright
It's gonna be alright
